NU-261 Talking Pool/Spa Thermometer with 3 foot probe
NU-262 Talking Pool/Spa Thermometer with 10 foot probe (Shown Below)
NU-258 POP Display

Features a water proof probe, and includes mounting materials. Simple push button operation. Unit speaks the temperature in Fahrenheit with an easy to understand voice.

Use:

Remove plastic "battery saver" strip on the side of the case by carefully pulling it straight out. If the tab should tear, simply unscrew the casing and remove any strip remnants from the battery.

Push the button to hear the temperature at the end of the probe.

Installation:

Secure base unit in a dry area using built in ring or velcro and braided string (included).

Caution: Do not expose the thermometer base unit to water

Situate the probe by pressing attached suction cup to any smooth surface, ensuring the location of the probe sensor remains in the desired position.
