

NU-29WB

Curl Towel Tree with Weighted Base

Made from 100% Furniture Grade PVC. Stands 54 inches tall, with a 13 inch wide base. Includes three curled towel bars.

Assembly:

1. Sandwich stem between hoop, aligning the holes drilled in the hoops with the holes in the stem.
2. Using the 1 ¼" Phillips head screws provided, attach the hoops to the stem. Tighten securely, but be careful not to overtighten, thus cracking the towel bars or stripping the screw holes.
3. Press the "Snap-Cap" onto the head of each screw.
4. For enhanced stability, fill the base with sand by pouring sand into the hole located on the base. Make sure to reinsert the plug. (Water may be used in place of sand)
5. Insert attachable fitting located underneath base, into top of base. Connect both lengths of pipe and place pipe into base fitting. Adjust to desired height and tighten the ring on top of the fitting.
